PROFILE

I build web and mobile applications for Swiss public institutions — a domain where software has to work for everyone and hold up to outside scrutiny. I built the citizen registration services for the canton of Neuchâtel's e-voting platform, where federal law permits only fully verifiable systems.

EXPERIENCE

Arcantel SA · Software Developer

March 2024 — present

Neuchâtel, Switzerland

Web and mobile applications for the Neuchâtel public IT service (SIEN), the public transport operator TransN and the Court of Arbitration for Sport.

- Citizen registration services for cantonal electronic voting — more than 7,100 registrations since they opened in June 2026.
- Street harassment reporting platform, delivered with the Neuchâtel Police.
- SwissID and AGOV sign-in in the Guichet Unique mobile app, through an OpenID Connect identity federation server.
- TAS/CAS jurisprudence platform in .NET and Angular; blockchain governance experiments with NEDAO.

C# · .NET · Blazor · MAUI · Angular · PHP · SQL Server · TeamCity · Fastlane

ESN Neuchâtel · Active member (volunteer)

September 2024 — present

Neuchâtel, Switzerland

I help international students find their feet in Switzerland: organising events, and lending a hand with the practical side of moving to a new country.

ESPRI Digital · Back End Developer (internship)

April — July 2022

Argentan, France

A database backup service for containerised workloads running on Kubernetes.

Kubernetes · Docker · Node.js

Axxone System · Full Stack Developer (two internships)

2020 — 2022

Lyon, France

July–December 2020: Vue.js components and a full-text search over Elasticsearch. September 2021 – March 2022: redesign of the Mutuelle Générale de Prévoyance site in Vue.js, and rework of parts of its PHP API.

Vue.js · Elasticsearch · PHP

EDUCATION

EPITECH — European Institute of Technology

September 2019 — August 2024

France

Expert in Information Technology, software development. Grande École programme, a five-year curriculum.

Dublin City University

September 2022 — May 2023

Dublin, Ireland

Faculty of Engineering and Computing. Fourth year of study, completed on exchange.

SKILLS

.NET ecosystem

C# · .NET Framework · Blazor · MAUI · ASP.NET Core

Architecture

Clean Architecture · MediatR · REST APIs · eCH standards

Mobile

iOS · Android · Fastlane

Front-end

Angular · Vue.js · TypeScript · JavaScript

Data

Microsoft SQL Server · MySQL · Elasticsearch

DevOps & tooling

TeamCity · Git / SVN · IIS · Docker · Kubernetes

Other

Node.js · PHP · C / C++ · Blockchain

Languages

French (native) · English (professional working proficiency)
